

DELIGHTFUL
ENGINEERING

COMPANY PROFILE

ABOUT US

Delightful Engineering is a customer focused engineering company specializing in PLC, SCADA, automation, control, electrical engineering, and energy managementsystems. The business was incorporated in February 2022 and is 100% Karachi owned and operated, with our Head office located at University Road, opposite to Sir Syed University, Gulshan – Iqbal, Karachi - Pakistan.

From modern purpose fitted out premises, the company employs a team of experienced and professional engineers who have provided industrial solutions from the factory floor to the resource planning and management levels of organizations throughout Pakistan.

As an Electrical and Automation company, we deal in control systems engineering for a diverse range of hardware platforms. We have recognized systems integration relationships with the major PLC, SCADA, and IoT.

As an electrical engineering company, we provide electrical design services to tightly integrate both the electrical infrastructure and control system to ensure the entire electrical system and associated processes function as intended.

Delightful Engineering provides all facets of engineering services, sales, and after sales services from project management and conceptual design right the way through to final site commissioning. In addition to this, Delightful Engineering provides a dedicated 24x7 support service.

MISSION

Delightful Engineering is committed to providing the highest quality products and services exceeding our client's expectations.
